

CENSUS SHOWS GROWTH IN AREA

LETTERS TO THE EDITOR

A SUMMARY OF FACTS

For several years we have all known that we needed to improve our Orland Park High School. Since our very small enrollment and the limited assessed valuation in our district do not allow us to expand and have a better scholastic program and a high school building, we realized that we would have to increase some adjacent area in cooperation with us in providing adequate high school facilities for both areas.

Prior to the passage of two school laws which will cause all non-high school districts and protectorate districts to be dissolved in the near future, no other adjacent area was interested in consolidating with Orland. Because these laws now exist, much interest in the high school problem has been evidenced all around us.

Your High School board saw that this interest might lead to a consolidation with one or more townships including Orland, so that we could have an adequate high school. Last January, the Orland High School board invited representatives of seven townships to meet in Orland Park for the purpose of determining which areas were interested in this high school problem. Following this meeting, the Orland High School board met with the boards from all the adjacent areas which were free to plan.

On the south, Frankfort township gave us no encouragement that their people would ever vote to join Orland. Many persons in Orland township expressed a strong feeling against the possible location of a school south of Mokena, which would have been the central location if Orland were to join the Will county townships to form a new district.

To the east, there is Bremen township, which was involved in a petition for annexation to Thornton. That election was held, the Bremen plea for annexation was defeated, and six days thereafter some of the Bremen school leaders began circulating petitions to form a Bremen High School district. Obviously, they are not interested in joining us.

West of Orland township lies Lockport township, with its large amount of assessed valuation and its excellent high school. They have indicated no desire to have additional territory. They don't need it, and to look toward Lockport for a solution to our problem would be to put Orland township in a same position with relation to Lockport as the Bremen petitioners (defeated 14 to 1) were with Thornton.

This left only the north adjacent area to consider. Dr. Reavis, well known educational adviser from the University of Chicago, was called out to address a meeting of citizens from Orland, Palos, and neighboring townships and to answer questions. He has studied the non-high school as well as the rural high school problems for many years, particularly in the Cook county areas. His advice was that the Orland-Palos consolidation would be a wise move for both townships.

Following this meeting, your high school board spent many hours in investigation of figures and facts relative to the problem. The board obtained all possible information on the building costs from reliable sources. More than a month ago, at a meeting of Orland township citizens invited to advise the Board, it was unanimously agreed that this Orland-Palos consolidation plan should be brought to a vote, so that the people may have their chance to express a choice.

There has been some opposition, but no one opposing this plan has offered a better one. Why? Because they do not have a better plan involving another community for reasons explained above. Some of the opposition would elect to stay in Orland, spend considerable money on a school here, and still have a definitely inadequate high school for the education of our children. In the Board's estimation, this would not improve the quality of education for the students, but would only provide more room in which to house our present inadequate program. A larger school, such as the Orland-Palos consolidation would provide, would enable us to have a far better curriculum for our boys and girls than could possibly be offered under the present arrangement.

We believe sincerely that some of the people who oppose this consolidation do not fully understand all that is involved in the problem. Those who would really like to know how to improve our school are urged to give either our school superintendent or any one of the Board members a chance to explain why we feel so strongly that the proposed consolidation should be approved. Orland Park Community High School Board of Education. Edward A. Gee, President, Ralph L. Town, Secretary, W. R. Blew, Howard Cooper, Owen Maue.

Dear Editor:

At a "closed" meeting held in the Orland School Library on June 14, those present were asked to write letters supporting the proposed consolidation with Palos, for publication in this issue of the Orland Park Herald. The following subjects were suggested and the aid of the School board's publicity committee was offered to help write such articles. (You will no doubt receive some of these articles.)

I would like to answer each of these subjects briefly.

1. "Consolidation will result in a better high school."

Ans. As yet, we have had no proof of this from the School Board. 2. "Consolidation is an important step to pave the way for the improvement of the grade schools in Orland Township."

Ans. The high school as proposed is likely to be so expensive to operate that grade school improvement will be handicapped for several years.

3. "Holding old grudges against Palos is foolish, especially if it will make our own children suffer."

Ans. The voters should be the judge of this. 4. "Let those who oppose this plan answer these questions:"

a. Exactly what plan do they offer in its place?

b. What reason have they to believe that the people affected will accept their plan?

Ans. The Board has said that there are other plans if this one fails.

b. Orland has never turned down a school proposition—if it seemed sound.

5. "Citizens who have not taken the trouble to study the problem carefully should accept the judgment of the Board of Education elected to represent them."

Ans. The present Board was elected to operate the school which we have, the People expect to be the judge of any new school plans. 6. "What would a 25c tax increase actually cost a typical taxpayer in Orland Park. In the rural section, or Orland Township?"

Ans. The Board knows that this question is misleading. They have in their files information indicating that the tax increase will be considerably more than 25c. It may go up as much as 55c. We are more interested in the kind of school that we can get for our money.

7. "Plans for school reorganization have been discussed for at least eight years. Let's not vote this down and then have to wait another eight years to start something else. It will be too late then."

Ans. Too late for what? We expect the Board to go right ahead, as soon as possible and work out a plan which the people of Orland can accept.

Girl Scouts at Day Camp This Week

The Girl Scouts of Frankfort and Mokena are enjoying this week at day camp in the Van Horn forest preserve. Spending the day at camp and home each evening from Monday through Friday, are 120 Scouts and their leaders. All parents and friends who are interested in seeing how a day camp works, are invited to come and see the camp at any time.

Miss Gretchen Reighard, executive director and co-ordinating Day Camp director of Girl Scout Council of Will County Inc., stated in view of the many cases of whooping cough in New Lenox, that it was best to follow the health and safety standards of Girl Scouting and excluded the New Lenox Scouts this year from the day camp. This was much to the regret of everyone, as the New Lenox Scouts are missed by those in attendance this year.

Bette Edwards and Robert Homerding Married in St. John's Church June 10

At the altar banked with ferns and baskets of white peonies, Miss Bette Edwards, daughter of Mr. and Mrs. Ernest Edwards, and Robert Homerding, son of Mr. and Mrs. Peter Homerding, all of Mokena, were married in St. John's Evangelical church, Saturday evening, June 10 at 7 o'clock. The Rev. William J. Riemann officiated at the double ring ceremony.

Mrs. Ruth Kuntner, of Muncie, Ind. sang "Yours is my heart alone," "The Lord's Prayer" and "Because." She was accompanied by the organist, Mrs. Howard Strassberg.

The bride, who was escorted by her father, wore a gown of silk chiffon, made with high neck line and a yoke of lace, trimmed with seed pearls, long sleeves and a full skirt with a train. Her finger tip veil was held by a tiara of seed pearls. She carried a bouquet of white carnations and lilies of the valley.

Mrs. Anne Burkhardt, who was her sister's matron of honor, was dressed in a green organdy gown, made with low neck line and stole and a long full skirt. All of the other bridesmaids were dressed in gowns of similar style and materials in pastel shades. They were Miss Elaine Spiess, in orchid, Miss Donna Williams, who wore

About Mud, Flying Saucers and July 4

by THE OFFICE BOY

Well sir, its been quite some time since I have been on this page, but with tire trouble and rainy weather, I guess I'm lucky that I was able to paddle down to New Lenox without getting wet.

Anyway, it sure has been bum weather around these parts, especially for Ray Westlund chief printer here and his family who left last week on they're vacation. The last reports I heard was that they were sleeping all afternoon every day and account of not having webbed feet.

Which reminds me that Fourth of July is on the way, which means bright things flashing in the sky and sky reminds me of the well known "flying saucers" which no body seems to have seen around here.

But Saturday I jumped on my bike and paddled to New Lenox just for sort of a vacation, and having a flat tire I stopped into Ozzie's corner for a coke quite late.

Mr. Osmus (in other words Ozzie) was real excited. He says that he just saw a flying saucer, and one of the men sitting around there said, oh yeah? I saw some too, once when our neighbor lad was mad at her husband, and Ozzie says, no, no, not that kind. These were up in the sky.

And what's more, he said, I saw two of them. I saw two flat spinning wheels just a few minutes ago and there was a reflection of light on the edges looking like a high which outlined the edges of the discs, something like fireworks.

Then Ozzie went on to tell the boys that they weren't very high because he lost them when they were behind a tree, but they were headed northwest going east from New Lenox.

Well, sir, I guess that's all the story there is, so getting my tire patched, I started back to Mokena. Gee, I wish I could see one once C. U. Later.

P. S.: I came back to Mokena by the back road, figuring I would see at least one flying saucer, but didn't. All I saw was a lot of mud which I got stuck in.

Last Rites For New Lenox War Vet Fri.

68TH PICNIC AT MARLEY JULY 4

Marley will shine again on July 4th as they have done for the past 68 years. They will hold their annual picnic in the Art Lauffer grove on 167th street to which everyone is invited, and to which many in a wide area always attend.

Dinner can be had on the grounds cafeteria, which will be followed by a program, games of various kinds, including a good ball game. Ice cream and all soft drinks will be available.

The picnic is sponsored by the Brotherhood of the Marley Community church. The location is ideal, where many large old trees afford shade.

This is an event which has been handed down from father to son and each generation gladly takes up the responsibility of making the July Fourth picnic a reality.

GERMAN STUDENT TALKS ON COMMUNISM

The speaker at the Calvary Baptist church, Lincoln Estates, next Sunday, June 25, will be Wolfgang Schmidt, of Homburg, Germany, as announced by the pastor of the church, the Rev. William N. Kerr.

Mr. Schmidt is the son of the executive secretary of the German Baptist Union. Mr. Schmidt himself headed the Baptist Youth groups in his area. A graduate of Goettingen University where he expects to complete his work for his doctor's degree upon his return.

Mr. Schmidt was one of three chosen out of 5,000 on a scholarship basis to come to America as an "exchange" student. He is at present attending the Northern Baptist Theological seminary from which he will receive his Master's Degree in the spring of 1951. At the same time he is engaged in research work on the World Baptist Movement for his degree at Goettingen.

The subjects for Mr. Schmidt's messages will be "Christianity in Modern Germany" at the 11:30 a.m. service and "Peace in Our Generation" at the evening service at 8:00 p.m. The problem of communism will be discussed in the light of modern politics and Christianity.

The Calvary Baptist church extends a hearty welcome to all who are interested, to join in these two worship services.

Tinley Merchant Gets First Entry

Since the Tinley Park hardware announced their second annual fishing contest to open June 15, they have already received one entry. It is a six pound, five ounce Northern Pike, caught in Minnesota by Jack Arbord, 2400 Des Plaines avenue, Blue Island.

After reading the announcement Jack lost no time in getting up to Minnesota and catching this nice fish, for he wants to be sure and have a chance for one of the prizes totaling about \$200. Mr. Charles Smith, owner of the store reminds everyone that there is no obligation in entering this contest. All you have to do is bring in your fish.

SOCIAL AND CARD PARTY

The Altar and Rosary society of St. Anthony's church at Lincoln Estates will sponsor a card party and social in the church basement Saturday evening June 24 starting at 8 o'clock. Games, prizes and refreshments are listed on the evening's entertainment.

Neighbors Help

Neighbors of Joe Lehnert came to his assistance recently following the 15 week illness and death of his son, Albert. They worked on his 140 acre farm on Sauk Trail, one-half mile east of Frankfort, plowing and planting 45 acres of corn and prepared the ground for other necessary work around the farm. There were 18 men, 14 tractors and two four-row corn planters working in the fields.

The wedding ceremony of Miss Betty June Kussner, daughter of Mrs. Stella Kussner of Manteno, and Alvin J. Wanner, Jr., son of Mr. and Mrs. Alvin J. Wanner, of Manhattan, was held in the Green Garden Methodist church, June 18 at 3 o'clock. The altar was banked with palms, ferns and baskets of flowers and lighted with candles. The service was read by the Rev. David Munson, pastor of the church. Lester Engenarat of Peotone, uncle of the groom, sang "The Lord's Prayer," "As You Desire Me" and "I Love You Truly." Clarence Rehberg, of Peotone, played his accompaniments on the organ.

The bride wore a gown of white, organza over tulle. It was made with a high neck line, trimmed with outcrops down the front and a full hoop skirt. Her finger tip veil was caught in a tiara of pearls and she wore a string of pearls, a gift from the groom. Her bouquet was of pink carnations and sweet peas.

Mrs. Calvin Brown, of St. Paul, Minn., sister of the bride, served as maid of honor. Her gown was of pink tulle with matching tulle hat. Miss Carol Jean Wanner, sister of the groom, was his bridesmaid. She was dressed in a blue tulle with matching hat. Both attendants carried bouquets of white carnations.

The groom was attended by his best man, Calvin Brown, brother in law of the bride, and Lloyd Tewes. The ushers were Allen Burmeister and David Dralle. For her daughter's wedding Mrs. Rusher was dressed in white with matching hat. Mrs. Wanner wore a beige dress with black accessories. Both wore corsages of pink carnations, as did the grandmothers, Mrs. Anna Engelhardt and Mrs. Anna Wanner.

A reception was held in the church parlors following the wedding and 125 guests attended. The bride table was decorated with a bell and white streamers. Mrs. Nellie Taylor served the three tiered wedding cake and Miss LaVerne O'Reilly served at the punch bowl. The guest book was in charge of Miss Joan O'Reilly.

The couple left by motor for a wedding trip and on their return in a week will manage a restaurant, newly opened at the intersection of routes 45 and 52.

Two Mokena Boys to Attend Jamboree

Bruce Shoop 14, and Russell Geun 16, of Mokena, will leave Sunday to attend the second national Jamboree of the Boy Scouts at Jamboree of the Boy Scouts at Valley Forge, Pa., entraining with the other Scouts of the Joliet Rainbow Council, at Oak Park. They will camp in tents and cook their own meals for the two weeks they spend there. They will go equipped with new uniforms which they earned through their own efforts. The Mokena Civic Club which sponsors the Scouts, is contributing \$40. toward their expenses.

47,000 Scouts from United States, Canada and several European countries will attend the Jamboree of the Daniel Carter Beard centennial. While there the boys will make side trips to spots of historical interest in New York City, Washington, D. C. and Mt. Vernon.

GRAND OPENING OF MOKENA VFW HALL POSTPONED

The grand opening of the VFW building on Wolf road, Mokena, originally scheduled for June 25 will not be held until sometime in September, due to the many conflicting dates for the rest of the summer. The exact date will be announced later.

It is the intention of the VFW to initiate a large class of recruits at the grand opening. The television set will be presented also at that time.

The neighbors who helped Mrs. Lehnert cook the meals for the men were Mrs. Joe Scott, Mrs. Ernest Lehnert and Mrs. Clarence Lehnert. Shown in the picture, sitting from left to right are: Raymond Tewes, Wilbur Hossbach, Billy Bettenhausen, Art Eggert and Richard Schoelting. Standing are: Harold Schiffer, Joe Lehnert, Vernon Hanson, Walter Salzweid, Howard Bell, Joe Scott, Henry Hossbach, Leon Harnack, Clarence Carlson and Norman Hossbach. On the tractors are Wayne Eggert and Dicky Lehnert.

WAYFARERS CLUB INVITE GUESTS

The Mokena Wayfarers club will hold a special meeting in the VFW hall in Mokena, Monday evening, June 26 at 8 o'clock, to which they are extending a cordial invitation to all Master Masons in the vicinity of Frankfort, Marley, New Lenox, Orland Park and Tinley Park.

The Mokena Wayfarers club, a Masonic organization in operation since the first of the year, was formed principally for the purpose of creating closer Masonic fellowship among their fraternal neighbors. The club, on invitation, visits lodges to confer the third degree on a neighbor brother.

The membership is composed of residents in Mokena and immediate vicinity, however, they welcome non resident brethren in the territory to join. John C. Janke, Mokena is president.

Under The Cross Of Malta

You remember I was wondering about the office boy's bike a couple weeks ago. The very next week, I was home for a day, so, lo and behold, here the office boy came peddling his bike up and parks it beside my vehicle.

My wife was trying a new recipe on me, so I persuaded the office boy to stay and be a guinea pig too. Well, I didn't feel any ill effects, but to be sure I drove over to Mokena the next day. To my relief and my wife's joy, we saw the office boy peddling down the street. Now I feel safe to invite others to come and sample the cooking at our house.

Fred Hentsch and Eino Saarela spent three enjoyable days at Rock Island where they attended the V. F. W. State Dept. encampment. One of the high lights of the encampment was a memorial service at the National Cemetery located on the Rock Island Arsenal grounds.

The next regular meeting of the Wm. Martin post will be June 22 at 8:00 p.m. The business meeting will be followed with refreshments and a social hour. There will be a surprise for those who were not at the last meeting.—Eino L. Saarela.

Four Relatives Of Mokena Woman Killed in Accident

Mrs. Jessie Sippel of Mokena received sad news last Sunday when word came to her of the tragic death of her nephew, William H. Freischlad Jr., his two children and his mother-in-law.

Mr. Freischlad will be remembered in Mokena for when he was a young lad he spent much time with the Sippels and helped in their store.

The car which Mr. Freischlad was driving was rammed in the rear by a car driven by Foster Kain, 41, an electrician of Gary, Ind. The impact rammed the Freischlad car into the rear of a Greyhound bus, and then caught fire and burned. The accident occurred on Cedar Lake road at the east limits of Cedar Lake in Indiana, Saturday night.

In the Freischlad car were his wife, daughter Sarah, 7, and son Billy 3, and his wife's mother, Mrs. Elizabeth Schwellenbach, 52. The bus was bound from Chicago to Louisville. The driver of the bus saved his passengers when he pulled the bus forward away from the flames. Cedar Lake and Crown Point, Ind. firemen extinguished the flames. Mrs. Freischlad pulled her husband from the auto, altho he died soon after. Mrs. Schwellenbach and the children in the rear seat were burned to death.

The family lived at 6800 Aberdeen street in Chicago. Mr. Kain was arrested. Mrs. Freischlad was injured and suffered from shock and hysteria. She was kept overnight in the Methodist hospital in Gary. Joint services for the four victims were held Wednesday morning at 9:30 in St. Brendan's church in Chicago. Burial was made in St. Mary's cemetery.

Father of Mokena Man Died in Joliet

Jacob Werner, 71, father of Fred Werner, Mokena, and former resident of New Lenox for many years, died Saturday in his home in Joliet following a lingering illness.

Born in Mokena, he lived in New Lenox for many years where he reared his family. For the past 19 years he lived in Joliet where he was employed by the E&E railroad for 35 years. He retired from that work three years ago. He was a member of the Brotherhood of Railway Carmen and Over the Top Lodge No. 822.

Surviving are his wife Mary; five daughters, Mrs. Grace Laughran, Mrs. Wilma Knapp, Mrs. Vera Studer and Hazel all of Joliet, and Mrs. Marguerite Pepping of Houston, Texas; four sons, Harold, Clarence, and Robert of Joliet, and Fred of Mokena; six brothers, Edward and Phillip, Joliet, George and William, New Lenox, August of Mokena and Fred of Buffalo, N. Y.; three sisters, Mrs. Emma Laughran, Prescott, Ariz., Mrs. Henry Wason, Caarlion, Iowa and Mrs. Lena Helms, Klemme, Ia.

Funeral services were held Monday afternoon in Joliet with Rev. James S. Lilley, pastor of the Trinity Methodist church officiating. Burial was made in Oakwood cemetery, Joliet.

CARD AND BUNCO PARTY

The Woman's Auxiliary of William Martin Post 725 of the Veterans of Foreign Wars, will sponsor a card and bunco party in the Vets' hall, Wolf road, Saturday night, June 24, starting promptly at 8:30. Refreshments will be served by the committee in charge, Mrs. Alice Homerding, chairman, Mrs. Mary Clark, Mrs. Mildred McMillan and Mrs. Glenn Peterson. The public is cordially invited.

FRANKFORT HOMECOMING IS SET FOR JULY 15 AND 16

The annual homecoming for Frankfort which is being sponsored by the Bobzin-Swinford American Legion Post, The Frankfort Volunteer fire department and the Frankfort Sportsmen club will be held Saturday and Sunday, July 15 and 16.

The Homecoming will be held in the Frankfort grove, 1/2 mile north of Frankfort on route 45. A good program of events and activities is being worked out with dancing in the evenings.

LETTERS TO THE EDITOR

(Continued from first page)

Dear Editor:
I write this in an appeal to the people of Orland Township to clarify their thinking in regard to school reorganization. Like Martha of the New Testament there are those who are concerned for many things. Rather, let us as individuals go to the grassroots.

Is This Program To Be of Benefit To Our Children?

As you all know I have no children, but I support this program for Mr. Henry and I feel that your children have the same right to a good educational program as any children in this country. If Mr. Henry is willing to give as much of his life to the education of your children as you know him to give, then surely you have an obligation to consider this question in all its aspects and to arrive at some decision, independent of any consideration except the good of your child (which is the common good of our community).

Because you have had so little in an educational program compared with what you might have, and because Mr. Henry believes so much in the education of boys and girls, he has found this job a tremendous challenge. During the past twelve months he has given all his time to bring about a more adequate educational program. With your support and cooperation and with the constant support of the two boards of education, much has been done. Your High school board of education and Mr. Henry have given long hours to developing a plan for school reorganization which they believe to be educationally sound and practically possible. They have earned your careful consideration of their findings and recommendations.

Now the responsibility for action rests with you. I am grateful for

your response to Mr. Henry's leadership. You are not fighting among yourselves or with him. You are thinking this matter through intelligently, discussing it openly and without malice. If you come through this election without the scars of ill-temper and tongue-lashings, you will have succeeded far better than many communities faced with the same problem of school reorganization. In evolving an educational program, good leadership and good will go hand in hand. If this falls, our children are the ones who suffer.

We have lived among you, as an integral part of your community for the past 12 months and we know you to be a civic-minded, industrious group of people, possessing a lot of hard, uncommon good sense. Therefore, in facing this issue of school reorganization, you will give thoughtful, unbiased consideration and you will take your stand at the grassroots.

Is This Program to be of Benefit To Our Children?

It is for your children that I speak.

Mrs. Virgil Henry

Dear Editor:

The Orland Park High school board wishes to correct two misleading or inaccurate statements in last week's "Letters to the Editor" appearing in this paper and written by persons opposed to the Orland-Palos High school consolidation. The first writer ended his letter with this statement: "Our High School Board has promised to get a better deal, if this consolidation is not approved! Let's help them by getting out the vote!" This statement implies that this High school board opposes the consolidation, and it seems to us a deliberate attempt to mislead and confuse the people. The truth is that all members of the Orland High school board favor the proposed Orland-Palos consolidation because we consider it to be the best plan which has a reasonable chance of being accepted by a substantial majority of the people.

Now the responsibility for action rests with you. I am grateful for

All members of this Board expect to vote for this consolidation, and we urge all citizens interested in a better high school to vote for it too.

Another letter stated that if the proposed consolidation is rejected by the voters, "It is likely that North Palos will be annexed to Argo under the powers of the County Superintendent of Schools." And later in the same paragraph, the writer predicted that South Palos "may be annexed to Orland under the same conditions." We have checked these statements for accuracy, and we find:

1. That the County Superintendent of Schools does not have such powers unless the school trustees of the townships affected should refuse to act.
2. That the school trustees of Palos township have made no commitment about what they would do with either North Palos or South Palos if the problem should sometime become their responsibility. In fact, they state that they have not even discussed the question at any time.

We also asked the Palos High school board for their opinion regarding what would happen to South Palos if the Orland-Palos consolidation should fail to carry and if some higher authority should force North Palos to go to Argo. Their answer was that South Palos would in that case probably elect to join the Blue Island high school district, where they have already been assured that they would be welcome. They do not believe that South Palos alone would consider joining Orland Park.

Finally, we should like to add that if North Palos really does want to go to Argo and if Argo really wants to annex North Palos, as those opposing the Orland-Palos consolidation seem to believe, then annexation could be brought about after the Orland-Palos consolidation just as easily as before.

Orland Park Community High School Board of Education
Edward A. Gee, President, Ralph L. Town, Secretary, W. R. Blew, Howard Cooper, Owen Maue.

Dear Editor,

Several articles have been published in this paper regarding the consolidation of the Orland Community High school district and the Palos High school district.

Some of the letters written in opposition have been fair and honest as the writer understands the proposed plan, however, other letters in opposition have been presented without too much regard for true facts and with a deliberate attempt to frighten the readers into a state of mind which would cause them to vote against this proposition.

Here are some true facts that every parent and taxpayer should know about school taxes:

- 1 In Orland Park less than 24 percent of your total tax dollar goes for High School costs.
- 2 School laws limit the amount of taxes that may be spread.
- 3 You, the taxpayer and no one else control at all times the maximum amount of money that can be levied.
- 4 When a new district is formed, you the taxpayer, by referendum, establish the maximum rate to be levied.
- 5 By referendum, the taxpayers of the Orland Community

High school district approved in 1945 the maximum rate of \$1.25 for each \$100 of valuation.

6 This maximum rate has never been levied by your High school Board of Education. At present the rate is \$.83, only 66 percent of the amount that could be levied.

By your ballot you have elected a Board of Education to protect your interests and to see that your children and your neighbor's children have a chance to get a good education.

These things your Board has conscientiously tried to do, but our responsibility does not end here. It is our DUTY to you as your representatives to constantly study ways and means of improving our schools. This we have done honestly and to the best of our ability with the aid of expert advice from Mr. Trimble and Mr. Fisher from the University of Illinois, Mr. Black of the Illinois Education Department, Dr. Reavis of the University of Chicago and from our own Superintendent, Dr. Virgil Henry.

We believe the proposed Consolidation Plan should be approved. It is now and will always be the determined goal of your Board of Education to provide your children with the best possible educational opportunity with the lowest possible cost consistent with the best educational practices.

Vote FOR on this proposition.
RALPH L. TOWN
Secretary Orland Comm. H. S.

Dear Editor:

We, who are residents of that part of the Orland High school district adjacent to Palos hope that old prejudices will not stand in the way of progress. Are we going to deny ourselves something good because we fear someone else less fortunate would be benefited? The best way to clear past differences for now and forever is through our boys and girls and their loyalty to school and community.

Let us vote "YES" for consolidation before Palos is attached to another district and lost to Orland township forever. Orland and Palos both have the same goal—a good education and a successful life for their children.

Mrs. A. Vynalek and
Mrs. Robert Heyden

Dear Editor:

From the remarks made in the letters opposing the Orland-Palos consolidation I draw either of two conclusions: first, the writer does not fully understand all of the problem of attempting to provide a better high school, or, secondly, that the writer is opposed to improving our high school facilities.

If I were contemplating the purchase of a new home, I would be fortunate indeed if I could have the benefit of over a thousand hours of careful study of the property made by someone who had a greater knowledge of real estate than I have.

We, of Orland Park High school district are fortunate in having a High school Board and Superintendent who have, collectively, spent more time than that, in careful study of our High school needs and now they may be met.

These board members, men of good standing in our community, have contributed their time and obtained advice from available reputable sources before presenting this Orland-Palos consolidation plan to the people.

Let's express our appreciation to them next Saturday, June 24 by voting for the Orland-Palos consolidation.

Dear Editor:

These last few weeks I have been studying the comments of those in opposition to the plan which the board has proposed. They say that, "There are other plans for improving Orland's educational system. All have better plans."

What are these plans? What reason have they to believe that the people affected will accept their plan?

Yours Truly, GENE C. BATES

Dear Editor:

I believe that consolidation will give us a Better High School because a large school can offer advantages that are impossible in a small one:

1. Five or more students are required before a subject can be added to the curriculum. This is not always possible in a small school.
2. Teachers required to offer a wide variety of subjects can only be employed by a school large enough to have the financial means. This means that we in a small school cannot give courses in Agriculture, Advanced Shop, Printing and other special subjects.
3. A large school can afford the services of a trained counselor for vocational and personal adjustment guidance.
4. Adequate Library and trained Librarian is more apt to be found in a large school.
5. Activities outside the classroom are more varied in the large school, thus permitting greater student participation and full personality development.
6. Because of these, a more rounded program is provided and the large school has a high academic rating.

Learn to Identify Corn Borer Egg Nest

"One thing farmers must learn to do if they are going to successfully handle the European Corn Borers," stated Farm Adviser C. A. Hughes, "is to learn to identify the egg masses of the corn borer. This will be a very good year to do this as we have perhaps three or four times as much corn borer as we had a year ago. It is very important therefore that we

keep a watch in the fields about the latter part of June for these corn borer egg masses.

"By egg masses we mean a cluster of some two or three dozen eggs laid by the corn borer on the underside of the leaf when the corn is one or two feet high. This first generation brood is usually hatched out about the last of June.

"Many farmers think they have noticed the moth that lays the egg which is brown colored and about the size of a cabbage worm. Actual-

ly most of these moths fly during the night and are seldom seen in the daytime, so it is probable that few have seen many corn borer moths. The corn borer moths have an instinct that carries them to the tallest corn available and if there is not any tall corn, they will usually go into oats, horseweeds, or other tall vegetation to lay eggs. This is the reason why farmers are advised to delay corn planting or to avoid hill dropping of fertilizers to avoid the first generation of corn borer moths.

"When looking for the eggs they will always be found on the underside of the corn leaves—usually on the topmost leaves. These egg masses are grayish in color and not too readily distinguished from the leaf on which they are fastened. There is a glossy, smooth surface over the eggs and the extra thickness in the leaves is not easily detected as the surface of the egg deposits tapers off to the surface of the leaf. At first one would be inclined to think that the egg mass that he might be looking at is some kind of an injury to the corn leaf that has destroyed a part of the green coloring. However, these masses can be scraped off with the thumb nail in which case we can be certain that this is a corn borer egg clutch. They are grayish in color.

"After having learned to identify these egg clutches, the important question to decide is 'How many egg clutches are there per plant?' The statistics of corn borers are out of every two dozen corn borers hatched from one clutch, usually one or two mature corn borers will get into the stalk. It is altogether possible that when these little corn borers hatch out and are still less than 1-8 inch long that there will be a hard storm or a period of hot, dry winds and most of them

will perish. However, if weather is normal, we may expect two or three from this clutch of two dozen to get into a stalk. If there are, let us say, two clutches or two egg masses on a stalk we will have six or seven mature worms in the stalk. Out of this six or seven mature worms possibly two or three will die or get caught by birds when they are not inside the stalk and we will end up with four or five worms in one stalk. The second generation which is about one-half as destructive as the first will add a couple more worms. In such a condition, there will be quite a bit of injury to the stalk and we may expect a rather severe damage to the crop. The above is figuring two egg masses per stalk. This would mean on a count of 100 stalks of corn in a field that some stalks would have no egg clutches on them; others may run four or five; some might have one; and some two. But the average would be two per stalk as an indicator of fairly average injury. This is enough to justify spraying, dusting or other control measures to handle corn borer. However, if the count runs less than two per stalk, the probabilities are that control measures will not be justified.

"In control of corn borers, there is no better means of control known than to use a spray carrying 1 to 1½ lbs. of actual DDT per acre. A ground spray seems to be the most effective. Ground spray will probably destroy half of the corn borers in one spraying. Another spraying repeated in about a week will probably eliminate 75% of the corn borers and this amount would probably be the greatest amount of control measures needed in corn for grain. If corn is to be in ensilage, we suggest that DDT be omitted. Airplane spraying and dusting, while less effective, is an easy, quick method of coverage.

"The key to recognizing the amount of damage probable in a corn borer infested field is to take just a little time the latter part of this month and learn to identify and count the number of egg masses in a corn field. If spraying is to be used for control, timeliness is very important. Just about the time that little black specks appear on the top of these egg masses which indicates that the heads of the worms are forming and about ready to come out, it is time to apply the first spray. If it isn't applied at the right time, there is little need to put spray on."

SCRIPTURE: The Book of Jonah.
DEVOTIONAL READING: Ephesians 3:14-21.

Peevish Prophet

Lesson for June 25, 1950.

JONAH THOUGHT he knew better than God. When men said, "Be a prophet," Jonah decided to take a long vacation. He took a ship for a far place so far away he thought even God could not follow. When God said, "Preach to Nineveh," Jonah decided that was the very thing he did not want to do. When God said, in effect, "Be a missionary," Jonah thought he would rather be a tourist. Of all the prophets on record, Jonah was the peevish one.

Dr. Foreman

The remarkable and unique little book of Jonah is perhaps the most misunderstood book in the Bible. Nobody knows how much ink has been wasted on the whale (which, incidentally, was not a whale but a fish!), whereas the real message of Jonah is not about whales at all. It is about taking the message of God to the most unlikely places in the world; it is the story of how the very people who ought to be doing it, sometimes won't do it.

Does God Care?

CONSIDER the good reasons Jonah might have given for not going to Nineveh. They are like the reasons people give nowadays for not believing in foreign missions. (A mission to Nineveh was about as foreign a mission as any one could have thought of, in those days.)

Reason number one: The Ninevites were mean people. So they were. Assyria, of which Nineveh was the capital city, had done, and would do Israel more harm than any other enemy she had.

The Ninevites were an unscrupulous, greedy people. They knew no law but force. They spread by violence into many a country. They were the nation nobody loved.

Should the message of God be given to such a city? Jonah thought not; God said it should.

And of course God was right. If the message of God had been sent only to peoples and nations that "deserved" such a favor, God's messengers would all have stayed at home.

Too Far From God

REASON number two: Nineveh is a long way off. Indeed it was. To reach Nineveh, Jonah would have to pass through at least a dozen other cities, all of which no doubt needed preachers. Were there not enough people at home who needed preaching? Of course there were... Only Jonah did not preach to them. He had a wonderful missionary opportunity there on the ship. Every man of the crew was a heathen. But Jonah was fast asleep.

This is often too true. People will protest about foreign missions: why send preachers and doctors and teachers and money so far away? Aren't there plenty of heathen right at home? Of course; but you won't often find the objector to foreign missions doing much about it.

Any church that is awake and active in supporting foreign missions will be found to be just as alive and intelligent in meeting the problems of the neighborhood.

Judge The World

REASON number three: (This sounds like a silly reason, but Jonah actually put it forward—Jonah 4:2.) God is too good! What was the use of preaching to Nineveh, Jonah wanted to know, if God was going to be gracious and not destroy the city with fire from the sky?

If God is good and merciful, why should we bother about sending missionaries anywhere? Won't he save every one anyhow? Isn't God too good to judge the world?

Jonah overlooked the fact that God had mercy on the Ninevites because they repented. Nowhere in the Bible is there any encouragement to believe that God has mercy on the unrepentant. To all who turn to him, God is gracious; and the job of the missionary, whatever else he does, is to persuade people to turn to God. "Be ye reconciled to God," said Paul, the great Christian missionary. If rebels will not lay down their arms, how can there be an amnesty?

The great tragedy of Judaism is the tragedy of Jonah: God wanted his people to win the world; but they became ingrown, they ceased even to wish to be a missionary faith. Shall the same tragedy overtake Christianity?

USE THE WANT ADS

From Congressman N. M. Mason
Time to Stop, Look and Listen—
This government is headed down

the road that leads to state socialism and disaster. If we can't put our financial house in order and balance the budget now, during prosperous times when the national income stands at \$240 billion, when can we ever balance it?

The beneficiaries of government subsidies, social security benefits, pensions, educational aids, hospitalization privileges, grants in aid, and all of the other sharing the wealth programs which are supported by tax monies, have been welded into strong pressure groups by labor organizations and others, and they

present daily a barrage of propaganda for more governmental largess and more governmental control. This eventually means the end of personal liberty, private initiative, and the free enterprise system. We have drifted along with the tide toward the socialist state. We have turned our backs on the homely philosophies of Benjamin Franklin and forgotten the principle that personal security starts with personal saving.

An Alarming Trend—Today America is prosperous with a national income exceeding \$240 billion. Yet, in the face of present day prosperity the Federal Unemployment Trust Fund is taking a beating. During the last nine months the Fund had receipts totaling \$867,345,229.00 and withdrawals totaling \$1,479,725,000.00—a net loss of \$612,379,771.00. At this rate the Federal Unemployment Trust Fund will be depleted entirely in about six years. And this is happening during the present prosperity peak. If we should have a recession or a depression the entire Fund would be used up within one year. Then where would our boasted security be? It is time to take stock. It is later than we think.

S. 3427. By Senator Lucas—S. 3427, introduced by Senator Scott W. Lucas (D-Ill.), proposes to increase the unemployment compensation to a maximum of \$30 per week for a person with no dependents; \$36 per week, one dependent; \$39 per week, two dependents; \$42 per week, 3 dependents or more. Where state unemployment funds become exhausted the bill provides that the Federal government will step in with its tax money. No one knows how many billions will be required under the provisions of S. 3427, and no estimate of how much will not pass this year, but if the election this fall goes as President Truman wants it to go, then the bill will be passed.

Facts Taken from the Hoover Report—1. If the Army, Navy, and Air Force could agree on uniform underwear, \$7,000,000 would be saved annually.

2. A private patient is discharged from a hospital on an average of 7.8 days after removal of an appendix. Similar patients remain in Navy hospitals 20.3 days, in Army hospitals 19.6 days at the taxpayers' expense.

3. In 1931 the Federal government spent \$29 for every person in the country. In the present fiscal year the spending has increased to \$276 per capita.

4. The Post Office Department operates with the same general organization it used in 1836—114 years ago.

5. Expenses of operating the Panama Canal went up 79 per cent between 1933 and 1943, but toll rates remained the same.

6. The Army tore down a camp in Alaska which cost \$16,000,000. It shipped the lumber to Seattle where the Department of Interior took it and shipped it back to an Alaskan point 10 miles from where it originally was.

7. An average of 115 days is required before a veteran's insurance death claim is paid. Private insurance companies pay death claims in 15 days.

Time for Spittle Bugs in Hay Fields

"About this time of year we begin to get calls from farmers about a froth forming on the alfalfa, clover, straw etc.," says Farm Adviser Hughes. This froth has given the name to this bug called the spittle bug. Underneath each patch of froth there is a small green wingless insect that sucks the juice from the plant and causes it to wilt if there are too many on the plants. Sometimes they become very numerous and will infest weeds, vegetables and other garden crops.

"The damage to a growing crop is never too great, usually running no higher than 20%. There have been a number of sprays suggested for this bug but so far control does not seem warranted. Up until the present time our suggestion is that hay fields heavily infested with this bug should be cut early and allowed to dry fairly well before being put up. The presence of these bugs apparently prevents normal drying and curing in the mows. Hence, it is a good plan to be sure heavily infested hay is fairly well dried beforehand.

"There is only one appearance of spittle bugs during the year. After this initial appearance and the hay is harvested, there will be none on any succeeding hay crops. This bug is rather new and has caused quite a bit of comment. I do not believe that it is one of the major bugs infesting the farm crops and for the most part little attention need be given to it. Its appearance is rather striking and for this reason more attention has been called to it than it actually deserves."

American Legion to Celebrate July 4 With Huge Program

The Chicago skyline in fire will rise over Soldier Field at the Fourth of July Celebration of the Cook County Council of the American Legion. It will be featured in the spectacular fireworks display which will climax the three hour show on Tuesday, July 4.

Another thrilling spectacle, according to Russell W. Root, Executive vice chairman of the celebration, will be a Circus in Fireworks, showing performers and animals doing their daredevil acts high in the air. In addition, the fireworks will include a huge American Legion emblem and the faces of historical figures.

These displays, Mr. Root announced, are all set off by push button electrical contact and supervised by Mr. Art Brieger, world famous pyrotechnician of the Theatre-Duffield Fireworks company—and not a match or flame is used. This is fully in keeping with the modern method of celebrating the Fourth, recognizing the tradition of fireworks but operating them in complete safety.

In this plan, the Cook county council of the American Legion has the full backing of the Illinois society for the Prevention of Blindness. Mrs. Dorothy Gray, executive secretary of the society, hailed the program as "eye saving" and "burn saving." She urged that children be permitted to enjoy fireworks, which have become such an important part of American life, but still do it the safe way. Mrs. Gray added a plea to children: "Don't take chances with home fireworks. Your eyes are too valuable to risk blindness by setting off even one firecracker. Besides, the Soldier Field show will be more thrilling."

The election of "Miss Fireworks" and her court of three will be made in the walnut room of the Morrison hotel starting at 8:30 p.m. Tuesday, June 27. Twenty candidates named from a list of entries from all over Cook county, will appear in shorts and sweaters and parade before the judges.

These girls will make a number of personal appearances between June 27 and the Fourth under the auspices of the Legion committee and will stress the need of a safe and sane celebration of the Nation's birthday.

Sophie Tucker and Joe E. Lewis, two outstanding stage personalities, will serve as judges together with Patrick J. O'Donnell, Cook county council commander, Mrs. Dorothy Gray, executive secretary, Illinois Association for the Prevention of Blindness and Miss Eileen Van Horn style consultant for the Formfit company.

Tickets for the Fourth of July celebration at Soldier Field may be obtained from the American Legion Headquarters in the Morrison hotel Room 510.

Important Policy Adopted by Bankers At Convention

Preservation of the purchasing power of the dollar; cessation of deficit financing by the federal government; revision of the Federal Reserve Act so as to encourage investment in bank and other business enterprise stocks and discontinuance of tax discrimination in different types of competitive enterprises; common sense discretion in the assessment of personal property so as to discourage its flight from the State on assessment date; discontinuance of use of terminology by Savings and Loan associations which confuse the public and payment by these Associations of the same Federal Income Tax as Banks pay; discontinuance of discrimination against State banks by National supervisory agencies; higher standards for the development of bank personnel; preservation of the dual system of banking; wide distribution of the public debt by banks urging more people to purchase U. S. Savings bonds; and refutation of need in Illinois for Federal aid to small business are all part of the enclosed Declaration of Policy adopted by the 59th convention of the Illinois Bankers association held in Hotel Sherman, Chicago, June 5, 6, 7, 1950 as announced by Harry C. Hausman, Secretary of the Association.

was in the hospital and since I am
home.

MRS. CLARENCE LAUFFER

IN MEMORIAM

LAUFFER—Robert Lewis. In lov-
ing memory of our son who pass-
ed away nine years ago June 14.
Sweet little flower of heavenly
birth.

He was too fair to bloom on earth.
Mr. and Mrs. Clarence Lauffer

There will be no church services
in the Methodist church next Sun-
day morning as the pastor will be
attending conference. There will be
Sunday school as usual.

Richard Erickson and son Dway-
ne are ill with mumps.

Postmaster Margaret O'Brien and
husband moved Saturday to the
James apartment on Front street
recently vacated by Mrs. James.

The MYF of the Methodist
church entertained their parents
at a pot luck and weller roast in
Messinger's woods Saturday eve-
ning. Games were played around
the fireplaces. Everyone had a de-
lightful time.

Mr. and Mrs. Harold Cooper
spent Sunday afternoon with Mr.
and Mrs. Charles Lauffer in Mar-
ley.

Guests of Mr. and Mrs. Berle
Needham this week were her moth-
er, Mrs. B. A. Hildreth, sister,
Mrs. Roy Kramer and children
Robert and Nancy of Herrington,
Kansas, and sister Mr. and Mrs.
R. W. Murohy of Leavenworth,
Kansas. All attended the com-
mencement exercises at Urbana
Sunday when Richard Needham
was graduated from the University
of Illinois.

Jean six years and John 2 1/2, of
Summerset, Pa., are spending the
summer with their uncle and aunt.

SOFTBALL

TINLEY GIRLS 12" Softball
by "Jan"

What is wrong with our girls' softball team? I ask you, not expecting an answer. Those lousy, miserable girls, they only beat the Midlothian Mid-Maids by 5 runs. Those same Midmaids trimmed our girls last year by about 18 runs. Leave us not be hasty.

The femmes fatale totaled 8 runs on 9 hits. The Mid-Maids got 3 on 5 hits. Franny Dolph chucked for Tinley, striking out 11. Poor Grace Thrun received. She tries. Ruth Bakker tried to put the ball over the plate for the Mid-Maids. Some dame by the name of D. received her last initial being D. received for the Mid-Maids. Ruth struck out 6.

Fanny did mighty fine in the hitting department getting 3 for 4. Barbara Pokorny was next with 2 for 4. Our friend Grace also pulled down 2 for 4. She tries.

By the time this is read by you peasants, the girls will have trimmed the girls from North Harvey. It should be quite a game. I think I'll try and make it.

The name of the girls league, by the way, is The Suburban Girls Softball League.

Scheduled Games

June 26, Matteson here, either 8:30 or 7:30 game. 7:30 at present time.

July 2, Oak Forest there, down in hollow. North on Cicero. 7:30 game time.

Last Week's Games

Tinley Park 8, Midlothian 3

Oak Forest 6, Orland 0

North Harvey-Matteson score unknown at present time. I assume in the standings that North Harvey won.

Tinley Park 16" Softball
by "Beans"

Greetings guys! Got news, lotsa news, but no ambition. I'll have to give it the old college try. Yea T. J. C!

Leave us discuss this coming donkey game. Was talking to Ben, the president, this Monday the 19th of June, Anno Domini, nineteen hundred and fifty. Ben's trying to sign a team to oppose the All-Stars. He thinks maybe the Saints will be interested in opposing the guys. The Saints is that hard hitting team that gave the All-Stars such a ruf time in the latter part of last season. As you will recall, the Saints were eked out by a few runs. Maybe they will win riding donkeys.

No?—Maybe Frances, the talking Army mule, can be signed up. Nothing too definite as yet, but come on out folks. It should prove to be a hilarious affair. Come out and see your friends make fools of themselves.

The idea of the game, according to Ben, is not to hit the ball. The batsman hits it and leaps on his mount that's parked by the nearest fire plug, and rides like mad for first. The mounted fielder chases the ball, and throws same back into infield. This I want to see.

Got very sad news for you fans. You're going to have to pay to see this great exhibition of talent. The northeast entrance to the park will be opened if possible to accommodate you eager fans. I have yet to post the player list. Have to get on the ball.

The so called all-stars took The Shamrocks from 60th and Halsted to the cleaners to the tune of 31 to 11 last Friday night. I'm not positive about the score, but it never was very close. The Shamrocks plowed out about six runs in their half of the first inning. Naturally this gave the all stars quite a fright but they came back strong, going ahead and staying ahead for the remainder of the game. Due to the facts that the lights go out about 10:00 pm. and the ball is hard to see in the dark, the game was called at the end of 6 innings. The fans, the players, and the people across the street from the park were duly thankful. The sceeters were having a field day as usual and baby it was cold outside! The old weather man sure put a damper on that game, nevertheless, a few hardy rooters turned out.

Was talking to a handsome Irish man, Mike Kerner, by name, manager for his brawny crew. He told me he'd like a return match with our boys at their field. It could be arranged according to Frank Lehmann, manager of the All-Stars. The Shamrocks play their home games at a diamond located at 76th and Winchester or on a diamond in Ogden Park. The Shamrocks aren't in any organized league, but play pickup games around Chicago town.

Mike says they've won more than they've lost. They didn't look too wonderful Friday night: I bet even Brandau's renowned team could have beat them.

Mike had a few critical comments to make relative to our field. He told me that there's a dark spot in center. Ask any center fielder in our league. Those lights do need adjusting and badly. Most fields have back lighting. This is impossible on our diamond because those crummy sportsmen play at the other end of the field.

Hally Hollwedel tells me that a pickup game is on the agenda for soon. A team from the John's Bread Co. is to be the victim this time. I believe they play the Sanger boys. More dope later.

Same on you Lowell Frank, rip-

ping poor papa Richardson's pants near clean off. This dirty deal came off Thursday night between the Methodists and Parkside. 'Twas a close play at second that made Lowell make a flying leap into Richardson's arms. Frank's spikes caught Richardson's pant leg just right. My you do have pretty shorts papa Richardson! Lowell was safe by the way. As usual Methodist beat themselves on errors, 21-18.
